

# ToolchainStatus

---

This page contains the status on SuperH of the various packages used for a toolchain: binutils, gcc, glibc.

## binutils

- 2.19.1
- 2.19
- 2.18

## gcc

- 4.4.\* UNTESTED
- 4.3.\* OK after [[<http://gcc.gnu.org/PR38991> PR38991]]
- 4.2.\* NEEDSWORK = It fails to rebuild itself. Probably with patch from PR38991 it works, but haven't tested it.
- 4.1.\* OK

## glibc =

- 2.10.1 UNTESTED
- 2.9 BROKEN After installing, everything else fails to compile with:

```
divdi3.c:(.text+0x15c8c): undefined reference to `__udiv_qrnnd_16'
```

- 2.8 OK
